

# SANICAIR

*Caring for you and your air!*

## Large Capacity Ultrasonic Vaporiser

- Scientifically tested and proven to kill at least 99.9% - 99.999% of airborne viruses when used with 'AQUAINT' / 'XANADOX' solutions\*
- Disinfects, purifies, cleans, protects and deodorises the air in Offices, Restaurants, Waiting rooms, Care homes, Warehouses, Clinics, Surgeries, Staff canteens, Bars, Car showrooms, Marquees, Hospitality venues etc.

23L large capacity, compact, modern and portable vaporiser for areas up to 200m<sup>2</sup>

Can be used to create a walk-through curtain with an up-and-over pipe extension kit

Multiple diffuser outlets to guide the cool / dry mist

Utilises 1litre per hour on 'Max' and 250ml per hour on 'Min' settings

LED display with remote control and multiple settings / controls for mist level, relative humidity, time etc.

Auto cut off mode in case of water shortage

\* Tested on MS2 Bacteriophage – a small unenveloped virus much harder to kill than SARS-CoV-2
