MANOR ROYAL BID BUSINESS RANGERS MONTHLY OBSERVATION REPORT

<p>Commentary</p> <p>Whilst Steven was waiting to be picked up from Wickes, he came across a 2021 Peugeot car brown in colour, that was sending out a large amount of black smoke form the engine department. Upon arrival he could see that the car was about burst into flames, he then quickly vacuated the passenger from the car. And immediately started diverting the up coming traffic towards Astral Towers/Wickes car park. Evon arrived shortly after then we both monitored the traffic until the fire engine arrives, we also spoke to the two occupants of the car who was two elderly females. Whom confirmed that they were sisters and that the car was hired form XXXXX. We assured them that everything would be ok and also advised them that they could go and sit inside M&S due to it was very nippy outside.. Fire engine arrived not long after and put the smoking car out, but later informed us that the smoke was caused by the coolant from the vehicle. No one was hurt from this incident, we continue to monitor the moving traffic until the fire left the location. Customer and staff were happy with the quick response from the rangers and praised us for job well done we then stood down and returned back to normality with out any further issues.
