Description of "Other" activities provided

Our first order of business in January was to set about litter picking as there was a particularly high volume of litter after the festive period.

We started box mowing the verges in zone 5 outside P&H. There was initially a lot of litter that needed clearing. We returned a couple of days to continue with our cutting and disappointed by the amount of litter that had accrued in that sort space of time.

We noticed on a few occasions that certain signs have been knocked down/damaged by what looks to have been HGV Lorries hitting them. We reported these to West Sussex and were really happy with how quickly the issues were resolved.

We are pleased to report that we finished our final cut of the main areas which really puts us in a good position going into the next cutting season.

Comments and observations

We have had a complaint about the amount of litter in the retail parks in zone 1. We responded and let them know that this isn't actually our area. Going forward, is there any way in which we can speak to the shops concerned to see if this can be improved? We've also noticed an influx of trolleys being dumped in around County Oak and Metcalfe Way. As this looks really untidy, we have been taking them back, but this again is something the shops should be doing themselves.

Suggestions for future actions, improvements or additional activities planned

Now that we've finished cutting the main areas, we plan to turn our attentions to edging to really help tidy up the verges.

A suggestion for either voluntary litter pickers and, or a permanent, full time litter picker to help free up time for the maintenance team to really focus on the detailed jobs to really enhance the area.

Photographic Impact Evidence (a selection of photos of work undertaken to demonstrate impact)

Fly Tipping

Drug needles found in a bus stop bin by Crawters Brook

Branch outside of P&H that was reported to West Sussex. It still hadn't been removed when we came to cut, so we removed it ourselves
