

Sign cleaning has taken place with the Manor Royal gateway signs and digital signs being cleaned, the remainder of the road signs will be cleaning over the winter period.

We have started to edge various grass verges, with our main focus starting on Manor Royal Road, this will continue throughout the coming months.

With the wild flowers now finished in The Terrace, they have been cut and collected so that this area can be prepared for more seeds to be sown.

Additional support from our in house tractor team meant we were able to cut back these overgrown areas.

This will allow us to keep these areas maintained to a manageable standard.
