

MANOR ROYAL
BUSINESS DISTRICT
CRAWLEY & GATWICK

After some excellent collaboration with CGG, we managed to clear 560kg of leaf and detritus waste.

We also used this time to edge up grass areas around the bus stop. The grass waste collected from this was used to repair verges.

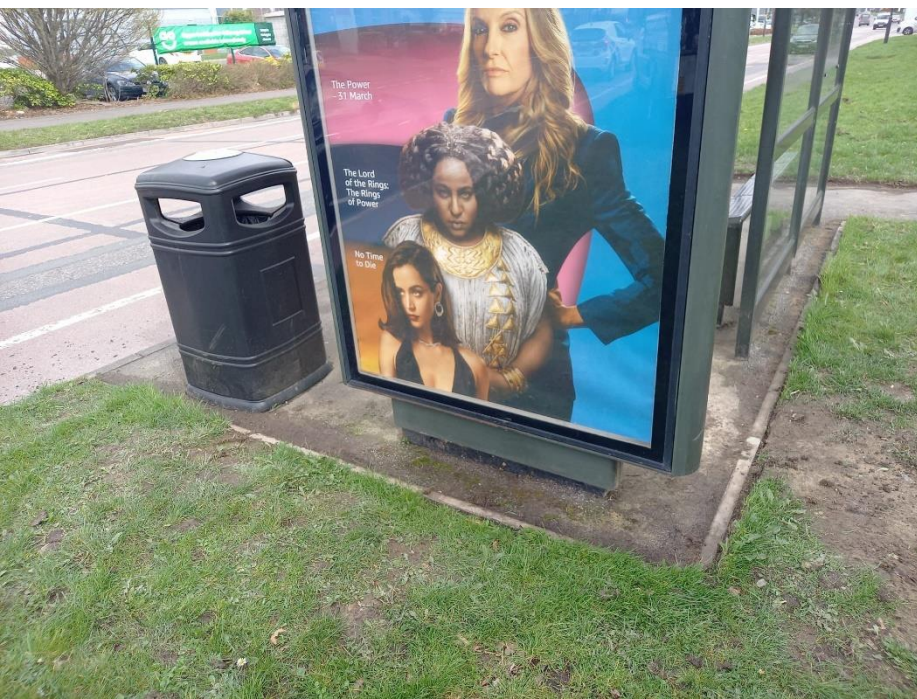

Our team has been out edging further bus stops within Manor Royal.

We have reinstated verges with the grass that was collected.

This location was the bus stop on Fleming Way.

We have trialled a product called Wet And Forget that has been applied to the Pocket Park seating blocks. This product is a simple to use cleaning solution which removes algae and moss.

This has also been applied to Crawter's Brook seating blocks.

As highlighted in our maintenance activity this is the fly tip/tin can shredding's that we're coming across.

The Rangers have been made aware of these and we will continue to work together to prevent this from happening.
