Manor Royal Maintenance Team

February 2024 Picture Report

Our team has been out to remove this built-up detritus.

Location – Metcalf Way.

**\*Work in progress\*:** Gateway 2

We are cutting back the grasses and reallocating some to patchy areas. We will also be replenishing the woodchips to help slow down weed growth.

We continue to edge various grass verges throughout Manor Royal and using the off cuts to reinstate damaged verges.

Location – Manor Royal Road.

Our team will be monitoring this area due to an increase in litter/fly tips.

5 large and very heavy bags of rubbish was removed from this area.

Deep clean litter pick and bramble cut back on Jenner Road.
