

RE-ENERGISE MANOR ROYAL

Working for a cleaner, greener Business District

What is Re-Energise Manor Royal?

Re-Energise Manor Royal (REMR) is an independent non-profit Local Energy Community (LEC), established to invest in and promote renewable energy projects across the Manor Royal business district.

Initially funded by West Sussex County Council (WSCC) and Crawley Borough Council (CBC), it works with the Manor Royal BID and businesses, to move us towards a Net Zero future. Maximising the deployment of rooftop solar energy systems, REMR aims to help Manor Royal move towards a low carbon and low cost energy community by 2030.

Who are we?

REMR's founding directors are: Steve Sawyer (director/ Manor Royal BID), Tim Rose (director/ Elekta) and Paul Searle (director/ P&H motorcycles).

Delivery team from Brighton Energy Co-op:

Damian Tow, Matt Brown and David Owers.

Contact us: info@remr.org

BECOME A FRIEND OF REMR:

- ✓ Receive regular updates on REMR's activities
- ✓ Have access to a renewable energy knowledge base
- ✓ Call on the team for advice on renewables and energy
- ✓ Attend REMR meetings and events
- ✓ Suggest potential projects (Energy surveys, Electric Vehicle charge points, insulation improvements)

Requirements: REMR Friendship is open to all

BECOME A MEMBER OF REMR:

- ✓ Benefit from interest rates up to 3% above Base Rate
- ✓ Take an active role by voting at the AGMs
- ✓ Take action on climate change through ethical investment
- ✓ Increase the ethical proportion of your portfolio

Requirements: Invest between £1000 and £100,000. Individual or corporate investors welcome

BECOME AN REMR SOLAR PV SITE:

- ✓ Significantly reduce your company's electricity costs
- ✓ Our solar PV experts install, commission, operate and maintain the system
- ✓ Strengthen your Net Zero credentials by reducing your carbon emissions
- ✓ Become one of a community of generators with the capability of trading power with others at Manor Royal, further reducing your costs and CO2 emissions
- ✓ Strengthen REMR to allow it to support community projects such as energy surveys and Electric Vehicle charge points for Manor Royal

Requirements: Building owners or tenants welcome to apply Available roof size typically > 1000m². Current electricity consumption typically > 10MWh per year
