

Manor Royal BID Energy Partnership

Making Manor Royal more sustainable

Manor Royal BID has partnered with Eden Utilities, a leading energy consultancy firm that provides a wide range of energy services to commercial and industrial organisations. Our joint aim is to make Manor Royal Business District a more sustainable place and help businesses manage their energy costs and reduce consumption.

Eden Utilities is a utilities management company, specialising in Procurement, Forensic Invoice Validation, Energy Cost Risk Management Services, bespoke Total Cost utility management and reporting. The team can assist in the management of as much, or as little, of your utility portfolio as you prefer - providing tailored and individual services to meet with your specific requirements.

Eden Utilities pride themselves on working in partnership with all clients, to ensure that they are receiving not just the best pricing available from their appointed utilities suppliers, but also the best value.

Manor Royal BID Energy Partnership

How will partnering with Eden Utilities help Manor Royal companies?

Manor Royal companies will have access to a more strategic way of buying.

Access to market intelligence via the Eden Utilities Trade Desk.

If companies access the fund, Eden Utilities will do all the work and remove the burden of tendering.

Eden Utilities will check all bills and query any errors.

Access to Energy Audits.

Access to the Eden Utilities platform, reporting and consumption monitoring.

Full Account Management.

Eden are targeted to achieve savings vs market average – Competitive pricing.

Eden Utilities will create a “Manor Royal Revenue Fund”, to support other sustainable projects and services in Manor Royal.

Eden Utilities Services

Electricity, Gas & Water Procurement:

All UK energy suppliers offer different energy purchasing and supply products, with varying contractual terms. Some offer greater purchasing flexibility than others – and typically with additional costs and with varying levels of restrictions.

Fund Procurement:

Manor Royal will have access to Eden’s Fund Procurement product. The fund groups similar sized organisations together, allowing Eden to hedge the energy in purchasing a number of ‘clips’ via an agreed strategy. The benefit of the fund:

- Buying Power
- Strategic Buying
- Competitive Pricing
- Volume Protection

Eden Bureau:

Utilities are subject to complex tariff calculations and regulation changes that impact on the user’s bill. Eden Utilities independently audit invoices, identify undue charges and recover any outstanding credit from supplier directly, on behalf of their clients.
