## About Manor Royal BID (Business Improvement District)

A Business Improvement District, or BID, is a business created, business-led and business funded body set up to improve a specifically defined commercial area in ways businesses decide.

Having started life in North America in the 1960s, BIDs have been operating in the UK since 2004 and are active in hundreds of towns and cities throughout the country.

They are voted for by businesses to serve five year terms to deliver additional improvements, initiatives and services set out in a Business Plan that they agree.

Following a postal vote by the business community, the Manor Royal BID was created in June 2013 and is the largest non-retail BID in the country.

Based on the rateable value of the property they occupy, all companies of certain size contribute a small sum that the BID Company, a not-for-profit company run by Manor Royal business representatives, uses to deliver the agreed improvements.

### Benefits of having a BID in Manor Royal

- The business community is well organised with the ability to influence and deliver change
- Businesses decide and direct what they want for Manor Royal
- Businesses are properly represented and have a much stronger, more legitimate voice on issues affecting the area
- Every penny of the BID levy money is ring-fenced for use only in the BID area
- Additional services are delivered exclusively to Manor Royal businesses and their staff
- Improved staff retention
- Greater influence and control to get things done effectively
- Additional investment is attracted to the area to match BID Levy contributions
- Active engagement with local authorities, the police and other public bodies

*"Being part of the BID has allowed B&CE to be at the heart of the decisions that impact the area we call our home."*
